## Corporate Aviation

SoCal Jets Inc strives to be the premier full service corporate jet maintenance and repair facility at the Van Nuys Airport. It accomplishes this by continually employing highly qualified technicians and utilizing state of the art technology. Our crew at SoCal Jets adheres to a strict set of quality control guidelines while providing superior value and first class service.

# Welcome to SoCal Jets

Here to provide you with the  
highest quality maintenance

SoCal Jets is located at one of the busiest general aviation airports in the United States. We are a FAA Certified Repair Station and one of the few facilities also certified by the Mexican DGAC. Our facility performs maintenance on a variety of corporate jets, including Gulfstream, Learjet, Hawker and Falcon. With an extensive background in pre-purchase inspections, international aviation commerce, and aircraft brokerage, the employees at SoCal Jets are always ready for big challenges.

The crew at SoCal Jets have a passion for aviation that is evident from the moment you walk through the door. Our highly experienced staff is committed to quality work with a strong focus on safety and reliability. Robert Roig, President of SoCal Jets, has been working in the aviation industry for over 25 years. His goal for the company is to provide high-quality maintenance that is completed on time, every time, at the best value to the client. Each handpicked FAA licensed technician brings a depth of aviation experience and a variety of technical skills. All team members maintain a commitment to aviation safety and superb customer service.

Maintenance: We have some of the most experienced and professional technicians working at SoCal Jets. If you have a squawk, we are equipped to resolve it. Today's aircraft are getting more and more complex, so there is no substitute for experience. Whether it is a hydraulic, mechanical, or electrical issue, we have the personnel ready to find the source of the problem, fix it, and get you flying. Call us at any time, no matter what part of the world you are in. We will dispatch an AOG road crew to go to your aircraft when it can't fly here.

Import / Export: If you need to import or export an aircraft we will prepare that aircraft and necessary paperwork for inspection by the DAR. SoCal Jets will assist with getting your Standard Airworthiness Certificate or Export Certificate.

Aircraft Management: Let us help keep maintaining your part 91 aircraft. Working together with your flight crew, we will monitor your maintenance schedule to most efficiently solve upcoming issues. SoCal Jets will put every effort to keep your flight schedule on time.

Pre-Purchase Evaluations: Are you considering purchasing a pre-owned aircraft? Allow us to act on your behalf to ensure that you are purchasing a safe and reliable aircraft. Our Inspectors will perform a complete records review, providing you an in-depth report of what we find. We will ensure that the records are complete; including all STC's and 337's. SoCal Jets will inspect the maintenance history to make sure it is current, including all applicable AD's and Service Bulletins. We will research for any damage and perform a physical inspection to remove all doubt and prevent any surprises from arising.

Inspections: Do you have an inspection coming up? Allow us to provide you with a quote for your work scope. We are equipped to handle just about any size inspection. We will ensure that the right people are working on your aircraft to complete it in a timely manner. You can count on the fact that you are receiving a complete and thorough inspection.

Avionics Servicing: SoCal Jets provides in house avionics support. From troubleshooting and maintenance, to minor installations and repair, the technicians at SoCal Jets can help. Don't waste your time and money training someone else's inexperienced employee. Our technicians will quickly diagnose your problems and come up with solutions.

Van Nuys is centrally located in Southern California. "SoCal" offers some of the most beautiful beaches, mountains, and deserts. It's always beautiful in sunny southern California.
